

Every year the IRS sets dollar limits for how much you can contribute to your deferred compensation plan. See below for the amount you can contribute in 2023.

Regular	\$22,500
Age 50+ Catch-up	\$30,000
Standard Catch-up	\$45,000

Once you reach age 50, you can take advantage of the age 50+ catch-up limit. The standard catch-up is only available for participants three years prior to the year of retirement. You cannot use both the age 50 and standard catch-up provisions in the same calendar year. Contact the Pathfinder Administrative office at 800-733-9008 if interested in the standard catch-up provision.

In Pathfinder, contribution limits only apply to the 457(b) plan, which receives voluntary employee contributions. Employer contributions and the mandatory 4.5% employee contributions go into the 401(a) plan and do not count toward the annual contribution limit set by the IRS.

To make a change log in to your account at www.okpathfinder.com, call the voice response system at 844-465-7284, or use the Empower app. Select the 457(b) plan to change your contribution level.
