1, 2024)

Member Provisions

Contribution Rate

Retirement Eligibility

Computation Factor

Contribution Rate

- First 20 years: Contribute at the 8% hazardous duty rate.
- After 20 years: Contribute at the non-hazardous duty rate

Computation Factor

- During **whole** years: 2.5%, up to 20 years of hazardous duty service.
- All other service types and partial years of hazardous duty service: 2% non-hazardous duty rate:

Retirement Eligibility

- Retirement: after 20 full years of full-time-equivalent employment in the hazardous duty plan.
- Must retire from a hazardous duty eligible position to qualify under the 20-year rule.
- This eligibility option is in addition to the regular age and service requirements.

Example of Service

November 1, 2024

Non-hazardous Duty

Doesn't count toward 20-year rule

Calculated at 2%

Hazardous Duty

Counts toward 20-year rule

Calculated at 2.5%

How Do I Calculate My Benefit?

$$\frac{\begin{array}{l} \text{Final Average Salary} \\ \text{Service Credit} \end{array} \times \text{Computation Factor}}{\text{Lifetime Annual Benefit}}$$

Split Calculation

Non-Hazardous Service

\$30,000

X 11

X 0.02

= \$6,600 Annually

÷ 12

= \$550

Hazardous Service

\$30,000

X 4

X 0.025

= \$3,000 Annually

÷ 12

= \$250

\$550

+ \$250

= \$800 Monthly

Purchasing Prior Service

What is Purchasing Prior Service?

- County deputy sheriffs and jailers can purchase prior service credit at actuarial cost.
- This will convert your previous service as a county deputy sheriff or jailer to hazardous duty service.

Deadlines to Purchase Prior Service

- This is a limited time opportunity
- Must make the election to purchase by July 1, 2026
- Anyone who is not employed as a county deputy sheriff or jailer on November 1, 2024, but reemployed later:
 - Six months from rehire date

Why Purchase Service?

- Purchased service credit is calculated at 2.5%, instead of the normal 2.0% rate.
- Counts towards the 20-year rule – you may be able to retire at a younger age.

Do You Have To Purchase Prior Service?

- You will still receive credit. for your prior service at 2.0%
- Only your Hazardous Duty service will be 2.5%.
- Only your Hazardous Duty service will count toward the 20-year rule.

What is an Actuarial Purchase?

The amount required to fund an increase in future lifetime benefits you would receive.

- Considers
 - the loss of missed earnings for the time funds were not invested,
 - the member's age, and
 - current salary.

Example Costs – Example 1

- Current Age: 61
 - Current Eligibility: 65
 - Prior Service: 8 years
 - Annual Salary: \$37,000
- Estimate cost: \$13,000
 - New Eligibility: 65
 - Benefit increase: 4% of final average salary

Example Costs – Example 2

- Current Age: 36
 - Current Eligibility: 56
 - Prior Service: 6 years
 - Annual Salary: \$35,900
- Estimate cost: \$74,000
 - New Eligibility: 50
 - Eligible to start benefit 6 years sooner

Service Purchase Calculator

Use the online calculator to estimate the cost (Coming soon!)

opers.ok.gov/hb1068
