## COMPETITIVE FEES CAN ADD UP

SoonerSave has a monthly administrative fee of \$2.61. Other plans could charge an asset-based fee, which means more money comes out when you have a higher balance.

If you move your funds outside the Plan, your fees may be based on how much you have in your account rather than a set dollar amount. You may end up paying more in fees each year, which means less money stays in your account to be invested for your future use.

The chart below shows the difference in what you might pay with SoonerSave compared to an asset-based fee.
